# paws for health

The **Paws for Health** program through Purrfect Paws, Inc. has the formula for that remedy and it involves no prescribed medication. These health benefits are achieved from simply owning a pet. Studies have shown that pet

owners are less likely to be depressed, are better able to tolerate social isolation, are more active, and demonstrate significantly reduced levels of risk for cardio vascular disease. Medical research has reported that perhaps the most serious cause of disease among Senior citizens is loneliness. The love, of and for a pet, is a great healer. Purrfect Paws, Inc is aware of the healing power of pets and has designed a program, **Paws for Health**, to assist Senior citizens in owning and caring for a pet.

**Paws for Health** will make monetary aid available for

- ▶ food
- ▶ supplies
- ▶ medical care

for cats that are adopted through Purrfect Paws.

In addition, volunteers will be available to help with

- ▶ direct pet care
- ▶ delivery of food and litter
- ▶ changing of litter
- ▶ transportation of cats to and from a veterinarian.

Senior citizens who participate in this program will be assessed to determine the specific needs and levels of pet care assistance they require.

“Cats are one of nature’s great resources for giving and receiving love.”

Seniors who choose to access the opportunity to enjoy a relationship with a loving cat from Purrfect Paws will experience not only the “healing powers” of pet ownership, but the satisfaction of providing a “forever home” for their feline companion.

“The love, of and for a pet, is a great healer. “
